Laiton vieilli avec verni transparent, seulement pour mettre dedans les maisons

Antikisierter messing für den innenraum

**CHIARIMENTI:** L'Antichizzazione è fatta manualmente e la tonalità dell'ottone può avere sfumature diverse da quelle delle foto. L'Antichizzazione fatta a mano non impedisce la naturale ossidazione di questo metallo che, esposto all'esterno, è soggetto all'azione degli eventi naturali. I nostri prodotti non sono autopulenti quindi, se vengono ricoperti da salsedine, devono essere puliti con i normali prodotti per pulizia dei metalli. Svolta la procedura di pulitura, pian piano nel tempo riprodurranno la patina tipica dell'invecchiamento dell'ottone.

# LEGENDA DEI SIMBOLI

## KEY TO SYMBOLS

Prodotto rispondente ai requisiti essenziali richiesti dalle Direttive europee in vigore.  
Product compliant with the essential requirements of the relative EU Directives in force.

---

Rifiuto di apparecchiatura elettrica - elettronica, deve essere smaltito in appositi contenitori.  
Waste Electrical and Electronic Equipment must be disposed of in differentiated waste containers.

---

Apparecchio che deve essere collegato al circuito di messa a terra dell'impianto per garantire la protezione alla scossa elettrica. - Equipment which must be connected to the system's earth circuit to guarantee protection against electric shock.

---

Apparecchio che non richiede il collegamento alla messa a terra dell'impianto in quanto la protezione alla scossa elettrica è garantita da un doppio isolamento con le parti in tensione.  
Equipment which does not need to be connected to the system's earth circuit as protection against electric shock is guaranteed by double insulation of live parts.

---

Apparecchio funzionante a bassissima tensione per la quale garantisce la protezione alla scossa elettrica. - Equipment which operates at low voltage which guarantees protection against electric shock.

---

Apparecchio non idoneo ad essere ricoperto da materiale isolante.  
Equipment not suitable for being covered with insulating material.

---

Apparecchio non idoneo ad essere installato su superfici normalmente infiammabili.  
Equipment not ideal for installation on normally flammable surfaces.

---

Vetro di protezione che se danneggiato deve essere obbligatoriamente sostituito.  
Protective glass which **MUST** be replaced if damaged.

---

Distanza da mantenere fra l'apparecchio e la superficie illuminata.  
Clearance between the appliance and the illuminated surface.

**CHIARIMENTI:** L'Antichizzazione è fatta manualmente e la tonalità dell'ottone può avere sfumature diverse da quelle delle foto. L'Antichizzazione fatta a mano non impedisce la naturale ossidazione di questo metallo che, esposto all'esterno, è soggetto all'azione degli eventi naturali. I nostri prodotti non sono autopulenti quindi, se vengono ricoperti da salsedine, devono essere puliti con i normali prodotti per pulizia dei metalli. Svolta la procedura di pulitura, pian piano nel tempo riprodurranno la patina tipica dell'invecchiamento dell'ottone.
